

CLEANING AND SAFETY PROTOCOL

We are committed to guaranteeing you our maximum attention to safety, constantly following the instructions provided by the WHO (World Health Organization):

- We do not accept reservations, in the same room / apartment / tent, at a time span of less than 3 days from each other, a term that is considered safe by the WHO to proceed with the appropriate sanitation operations of the premises, thus protecting your and our health. Be sure your health and safety is paramount in your staying with us.
- We have implemented cleaning and disinfection protocols, making them even more stringent, following WHO recommendations and using disposable products.
- We wash linen at high temperatures, with the addition of additives suitable for disinfection, with adequate drying (luckily the sun is not missing in Sardinia) and ironing, or alternatively, to provide disposable bed linen and towels (including mattress covers, with a small surcharge).
- We respect the rules about the waste disposal.
