

CLEANING AND SAFETY PROTOCOL

- We are committed to guaranteeing you our maximum care to safety, constantly following the instructions provided by the WHO (World Health Organization).
- We have implemented cleaning and disinfection protocols, making them even more stringent, following WHO recommendations and using disposable products.
- We wash linen at high temperatures, with the addition of additives suitable for disinfection, with adequate drying (luckily the sun is not missing in Sardinia) and ironing.
- We thoroughly respect the rules about the waste disposal, and we ask for your cooperation.
